Love, you ever wanna fall for something real  
Ever wanna change the way you feel  
Then I will show you how this time

Love, it moves in ways that you can't describe  
So close your eyes and see that  
Everybody falls apart sometimes  
Everybody walks a step behind sometimes

If you ever need someone to hold you  
When you're feeling like you're all alone, I will  
And if you ever need someone to be there  
When you're feeling like all hope is gone, I will

You, you think you know just what to do  
'Til you turn around and see that  
Everybody falls apart sometimes  
Everybody walks a step behind sometimes

If you ever need someone to hold you  
When you're feeling like you're all alone, I will  
And if you ever need someone to be there  
When you're feeling like all hope is gone, I will

Take a look at yourself and see you're not alone  
Turn around and just start to make your way back  
home  
I'll be there for you

If you ever need someone to hold you  
When you're feeling like you're all alone, I will  
And if you ever need someone to be there  
When you're feeling like all hope is gone, I will, yeah

And if you ever need someone to hold you  
When you're feeling like you're all alone, I will  
And if you ever need someone to be there  
When you're feeling like all hope is gone, I will
