Verse 1

Some days I just want to scream everything that I
believe in
Oh, there's a love that will quench your soul and show
you what life is
But then I turn in fear and doubt that someone will hear
me
That they will all just laugh in face and call me crazy

Oh why'd I back down
I've got to share my heart
Turn this world around

Chorus

Say, what you believe
Come on and shout it out loud
Say, what you believe
Say, what you believe
Come on and live it out loud
Say, what you believe

Verse 2

Some say that I'm wasting my time with the one love I
believe in
I can't deny that this feeling inside has got me seein'
Eternity comes to those who believe when this world
starts fadin'
So go ahead and laugh in my face and call me crazy

Oh I won't back down
I'm gonna share my heart
Turn this world around

Bridge

Everybody come and rise up together
Take a stand, don't be afraid of the pressure
And with one voice we're gonna cry out forever
Every mother father sister brother
Reach out for each other c'mon
