Your falling on your own inside you please stay strong.  
I will be here right beside you.  
I know you are gone and your far away from home.  
I'm here right now if you cut me I'm bound to bleed.

And you wanted more.  
And you wanted to find.  
The perfect life that you wanted.

Suffocating yourself this is were you belong lay your  
head back down.

Your falling on your own in time you'll be free soon  
Cause I'm here and it's now this is all you should ever  
need.  
Before you may go you'll be longing fast asleep  
I am here right now if you cut me I'm bound to bleed.

And you wanted more.  
You wanted to find.  
The perfect life that you've wanted.

Suffocating yourself this is were you belong lay your  
head.  
Suffocating yourself this is were your belong lay your...

Head down now smother your intentions aren't good  
enough let me go.  
Your worthless and dishonest you've taken my breath  
away from me.

Suffocating yourself this is were you belong lay your  
head.  
Suffocating yourself this is were your belong lay your  
head back down.  
Oh and you wanted more you wanted to find.
