oh and I will never forget
your smiling eyes at this night where we first met.
These times were easy simply live without regret.

oh and baby, baby, baby
I took it all for granted, never thought about what may
be
if I lost you now the blames on me.

Good bye dont mean farewell my dear.
This broken dream wont disappear.
An aching in my soul because Ive lost my goal.

Without you Im facing cold and lonely nights.
Without you stars falling down to fading lights.
My broken heart is caught in pain. Give me shelter from
the rain.
You know, it will never be the same without you.

All these mirrors staring straight at me,
showing reflections of a life that could have been.
Now Im a stranger walking in a memory.

Good bye dont mean farewell my dear.
This broken dream wont disappear.
An empty place inside my soul remains.

Without you Im facing cold and lonely nights.
Without you stars falling down to fading lights.
My broken heart is caught in pain. Give me shelter from
the rain.
You know, it will never be the same without you.

Without you without you

[SOLO]

Without you Im facing cold and lonely nights.
Without you stars falling down to fading lights.
My broken heart is caught in pain. Give me shelter from
the rain.

You know, it will never be the same without you.
