I feel strangely cold and nervous again my friend
And its time, this conversation ends
I weigh, my will against the steel
In the palm of my hand
And it looks like (you'll see) my reality
And it looks like (you'll feel) the pain
Oh, save my soul
Save my soul
Did you take me for a fool my friend?
Think that you'd be laughin?
I don't ever forgive
I don't ever forgive
Chorus:
And it looks like (you'll see) my reality
And it looks like (you'll feel) the pain
Blood in, Blood in, Blood in, Blood in the river
Blood in, Blood in, Blood in, Blood in the river
Oh save my soul, save my soul
Oh save my soul, save my soul
I'm not here cause I wanna be
I'm not here to be free
In this broken society
Corrupt and empty
You made me
You made me
(Chorus)
