It must have been the way you walked  
When you walked in  
It must have been the way we laughed  
At the host's expense

I could see the hurt in you  
And I know you see right through me  
"Ever since I knew you"  
To "here we are" and "back again"  
Chorus 4x  
But I lost you somewhere in between  
Here and there

Now I can see you don't belong  
And I don't fit in  
Now how could we both be wrong  
And be right again

Oh the games we play  
Oh my fear my shame  
Oh my poisoned past  
I'm falling fast

Chorus 6x

I wonder was it fake  
Fate took my head off  
Why'd you come around here  
Why'd you come around here  
Broken, break  
Makes me forget her  
I'm running out of here  
I'm running out of here
