Drag me down, pull me under deep
Smother me with your hate
Tell you what I've heard it all before
Tell you I don't give a damn
I can see, I can say
I can see you
Hold me close, whisper in my ear
Promise me, no more
I won't scream, I won't beg and plead
I'm here at your mercy again
Chorus:
Kicking and crawling, you're begging to get more

Kicking and crawling, you're dragging me down
I want more
I want more
Tell you what I've heard it all before
Tell you I don't give a damn
Drag me down, pull me under deep
Smother me with you hate
(Chorus)
