She goes ballistic on me

Says I don't meet her needs
And she's had enough
I guess
Me, I wish I could be
Satisfied easily
But I'm not
Yeah

Chorus:
Never enough, now
Never enough, now
Come on take it all away
Never enough, take it all away

She feels the pain that can heal
Has her hands on the wheel
Takes it in and moves along
Me, I elect not to see
Swim the deep tragedy
Drowning in my own self interest

Chorus
