I don't know whatever
Takes me to the limit
Pushes me
Then makes me want to stay
I won't go forget it
Things I said I meant them
Funny how
Everythings changed

You know exactly what
Makes this just what you want

Come on live a little dangerous
Light it up and let live in us

Come together
Forever (and again)
Tomorrow starts today

No one knows me better
Keeps me on the level
Comforts me
Makes it go away
I could never guess
How did I impress
Someone just so beautiful like you
