In the fury of the moment  
When the words of wrath rang out  
When my mind was filled with questions  
And my head was filled with doubt

I can still see sadness heartbreak  
And the sorrow in your eyes  
How can flowers live in darkness  
How can I apologize

For the blackness I've created  
In the world that used to shine  
I have wilted all the roses  
And I spoiled all the wine

Just get out your magic pencil  
And erase the cloudy skies  
Just draw a picture of me  
Saying, I apologize

Give me back  
The words I spoke in haste  
Give em back  
Or love will go to waste  
Give em back

See the sunlight reappearing  
Through the shrouds of darkened blue  
As I hear the words forgiving  
And watch the flowers bloom

And when time has lost that moment  
And we mended broken ties  
I will stay be on my knees  
Saying, I apologize

Give me back  
The words I spoke in haste  
Give em back  
Or love will go to waste  
Give em back
