Now it's time to readdress
What is sacred? Are you sacred?
Are you cursed, or are you blessed?
Were you created from all this hatred?

And I don't need a devil to change my mind
I don't need an angel to keep me in line
I've got my head screwed on like a like in a cross
And I'll make my own decisions.

So the cup, it overfloweth
Into the red sea, into the Dead Sea
Above the mountain, or deep below it
It flows as freely, as you believe me

And I don't need a devil to change my mind
I don't need an angel to keep me in line
I've got my head screwed on like a like in a cross
In a church of no religion

You think all your cardinal sins
Will stay underground
You've ruined almost everything
So step down, down, down, down, down

All your money and all your faith
All your miracles and holy visions
Won't make the world a better place
So take a pew and stop to listen

I'm telling you the truth
If World War III comes soon
You'll find me singing in a church
Singing in a church
Singing in a church of no religion

Get the scissors, cut the strings
It's time to move on, time to move on
The puppeteer is out of time
We've waited so long, waited so long

And I don't need a devil to change my mind
And I don't need an angel to keep me in line
I've got my head screwed on, like a nail in a cross
And I'll make my own decisions

You think all your cardinal sins
Will stay underground
You've ruined almost everything
So step down, down, down, down, down

All your money and all your faith
All your miracles and holy visions
Won't make the world a better place
So take a pew and stop to listen

I'm telling you the truth
If World War III comes soon
You'll find me singing in a church
Singing in a church
Singing in a church of no religion

Singing in a church
Singing in a church
Singing in a church of no religion

(Singing in a church
Singing in a church
Preaching in a church of no religion)

(Singing in a church
Living in a church
Praying in a church of no religion)

(Singing in a church
Singing in a church
Singing in a church of no religion)
