Little silver bullet hanging in my head
And you know you won't dislodge it 'til I'm dead
Got it in my dark days when I ??????
And now I think I want to give it back
And I can't get to sleep can't hit the sack

I don't need this full moon trying to drag me down
Cos I'm possessed by something underground

Oh Mr Mephistopheles I beg to differ, disagree
I don't need you, you don't need me
So get off my fucking back

Oh little silver bullet, trying to lick my brain
And I hope he never shoots me there again
Got it in my dark days when I was still a pup
And I thought that life was always looking up
Yeah I thought that life was always looking up

Oh Mr Mephistopheles I beg to differ and disagree
I don't need you, you don't need me
So get off my fucking back

Mr Mephistopheles I beg to differ, disagree
I don't need you, you don't need me
So get off my fucking back

(instrumental)

Oh Mr Mephistopheles I beg to differ and disagree
I don't need you, you don't need me
So get off my fucking back
Well get off my fucking back
Mmm get off my fucking back
Well get off my fucking back
