Spider has eight legs, you know
Spins its web, the patterns flow

There's something in my eye
Bloodshot in disguise
God knows I really tried

Making the big time
Aiming to climb high

Scattered seeds can't fight the cold

Circus horse just wants to hold

There's something in my eye
Bloodshot in disguise
God knows I'm really tired

Let's make the big time
Aiming to climb high

Let's make the big time
Aiming to climb high
Aiming to climb high

Spider has eight legs you know
