Got two rays of the dying light
Treat myself to the lows and the highs
But I know your love will save me
Guess I need a little reminder
I find it hard these days to be kinder
But I know your love will save me
I've built an armored shell
So you don't know the real me
And I've been out in the wilderness now I'm ready

When the lost don't want to be found
When the missing don't make any sound
And if I fail oh I'll never come home
When the lost don't want to be seen
Smoke and mirrors through a silver screen
And if I fail I can never come home

All this hope is a dogged concept
Man was screwed from the very first onset
But I know your love can save me
I started at the finishing line to find my way back to you
And I'll come in from the cold when I pay my dues

When the lost don't want to be found
When the missing don't make any sound
And if I fail I can never come home
When the lost don't want to be seen
Smoke and mirrors through a silver screen
And if I fail oh I'll never come home

When the lost don't want to be found
When the missing don't make any sound
And if I fail oh I'll never come home
And if I fail I'll never come home
