All these things that I have done
The hours I have spent
Looking for something to run to
To cover my head

The rain came down in sheets of razors
Cutting my face and blocking my way
It was impossible to see the angel that was staring at
me

If you could stand tall with me
What are we fighting for
We have to believe
It was setting us up for more
So much more that we could know
Is waiting just down the road
If you could stand tall with me

Someone said you were the one
Who comes to every man
When his back's against the wall
And his money's all been spent
And it's time to fan the flame
Never to walk this way again
Will I be the one to rise above?
Lord am I strong enough?

If you could stand tall with me
What are we fighting for
We have to believe
It was setting us up for more
So much more that we could know
Was waiting just down the road
If you could stand tall with me

It doesn't matter what we say
It only matters what we do
Move past this flesh and blood
See what's inside of you
I need to know

If you could stand tall with me
What are we fighting for
What are we fighting for

If you could stand tall with me
What are we fighting for
We have to believe
It was setting us up for more
So much that we could know
Is waiting just down the road
If you could stand tall
We could be so much much more

Yeah we could be so much much more
So much more
