I picked up the phone  
she said, "hey it's me"  
i know it feels like forever since i heard your voice

but i guess that's how it had to be  
so we talked a while  
'till she said i better go  
but before we hung up  
she said there's something you need to know

I found someone

it just happened out of the blue  
even though i'm moving on,  
it don't mean that i don't still love you  
you'll always have  
a place here in my heart  
but somewhere in this new life i've begun  
i found someone

well i wasn't surprised  
but still, it hit me kinda hard  
it's hard to believe a little space and time

could turn into miles and worlds apart  
i said "i'm happy for you  
you deserve the very best"  
since you've been gone i've done some praying  
and some searching for myself

and i found someone

it just happened out of the blue  
even though i'm moving on,  
it don't mean that i don't still love you  
you'll always have  
a place here in my heart  
but somewhere in this new life i've begun

i found someone

but it took tears and time down on my knees  
and it's not who you'd ever guess  
or who i'd dreamed it'd be

but in the mirror one morning looking back at me

i found someone

it just happened out of the blue  
and it took everything i had

it took me losing you  
but you'll always have

a place here in my heart  
somewhere in this new life i've begun

looking for my place under the sun  
i found someone
