I've been walking through this so long, but yet every  
step I take,  
I remain strong, the pathway goes on stronger every  
time,  
I'm getting used to it, I remain strong and I am fine,  
The dream that I try to achieve is just for you, just for  
her oh let go,

Let go,

I see angels flying everywhere but none of them come  
towards me,  
Like you you left me, (now I see this),  
The end is coming forward close to us, salvation is cut  
short tonight love,  
The dream that I try to achieve is just for Chelsey, just  
for her oh let go,

Let go,

The end is coming forward close to us, the pathway  
goes on stronger every time,  
Baby don't leave me with open arms, I will see through  
all your lies,

The end is coming forward close to us, the pathway  
goes on stronger every time,  
Baby don't leave me with open arms, I will see through  
all your lies,

Your lies,

You fucked me over now forever fades away,  
Fades away, (it all just fades away),

(Love fades away).
