Sex is the reason that we all exist  
See the stars made love in primordial mist  
Way before the abyss, generated Genesis  
The endless kiss, when the Gods put they lips on the  
galaxy  
Stimulating universal energy  
Magically, sexually, life was spread rapidly  
Vasectomy to decimate the legacy is futile  
Whenever I write, I give life to a new child  
The music sound nubile  
I'm fit to have sex with rap, and probably procreate a  
new style  
Spermatazoa devoted to searching the biological  
ocean for controllin the ovum  
Further than Omega, flow goes extra  
Milelage, cause everything is sex & violence  
Jet for seclusion and refuge in choosin  
The best loops avoided  
Lex Coupes and toys and  
Techs and tools that infect the school systems  
Paint new rhythms like Picasso usin Cubism  
New prisms for your eyesight to explore  
My life's with Adam & Eve, ?? the sex for  
Connect your rhymes with minds like an amoeba  
We could either follow the leader or follow procedures  
Either eat it before you secrete a seed in between her  
Or leave her screamin fiendin beneath her to please  
her deeper  
So many ways to sex it, with amazing methods  
I never paid to get it, I was made to wreck it  
I ain't afraid to bless it, cause I slay protected  
On stage I'm nekkid, the way I was created (Check it!)  
At a show capacity was two hundred forty  
Did it to the crowd it was a new sorta orgy  
Them other brothers before me approached it kind of  
corny  
So I when I grabbed a shorty yo she wasn't even war for  
me  
That made me more horny, I like a challenge so  
Started to alter the definition of a talent show  
I knocked it off like a gallon pro

Hit it and switched positions  
Lovin this mic, got a rich tradition  
Yeah the baddest of the best was affectionate  
Romance and bodily kisses before sexin it  
Slow dance and pay for the meal, just like a gentleman  
Treat her like a lady, hold the door before you let her in  
Mental medicine, pencillin for whatever villian infected  
the mic  
With metaphysics with syphillus in it  
Cynical critics script it as if I ain't fuckin it right  
But all they do is masturbate, they never was touchin  
the mic  
Bust it and slide man, that ain't my style  
Get permission before stickin and stay a while  
When you hit it it was rape, plus you spit in her face  
Talkin shit in the place like youse addicted to base  
With upliftment, patience is passe to rapmade  
Sing like an usspay that stinks like an ashtray  
On this microphone better watch what that ass say  
So everybody don't catch AIDS, in the last days

Be careful with this shit!
