Run here pretty baby, Cleanhead's back in town
Run here pretty baby, Mister Cleanhead's back in town
I been out of circulation, but now I'm back around

I'm all alone baby, sittin' on my big brass bed
I'm all alone now baby, sittin' on my big brass bed
I done cried so much, my eyes turned cherry red

Wake up old maid, come spend some time with me
Wake up old maid, come spend some time with me
Everything is different, things ain't what they used to be

It was a dream, I was having lunch with you
It was a dream, I was having lunch with you
Bring your big fine foxy self on home, and cook my
kidney stew

Juice head baby, you know I love you so
Juice head baby, you know I love you so
If you don't treat me right baby, somebody sure has
got to go
