A man chases a girl (until she catches him)
He runs after a girl (until he's caught)
He fishes for a girl (until she's landed him)
It all comes out exactly the way she thought
Uncertain, he tags along behind
Uncertain, 'til she makes up his mind
A man chases a girl (until she catches him)
But don't run too fast while you are saying no
And once you've caught him don't ever let him go
Interlude
A man chases a girl (until she catches him)
But don't run too fast while you are saying no
And once you've caught him don't ever let him go
(Don't let him go, don't let him go, don't let him go)
