Believe me, this is my first affair
Handle my heart with care
Gee, how I love you
So, help me
You know the way I feel
Say this romance is real
Gee, how I love you

I love the way you kiss goodnight
The way you hold me tight
I swear by all the stars above
You are my only love
So, help me
You know the way I feel
Say this romance is real
Gee, how I love you

I love the way you kiss goodnight
The way you hold me tight
I swear by all the stars above
You are my only love
So, help me
You know the way I feel
Say this romance is real
Gee, how I love you
