"Big Door"

I did my baby wrong
Left her all alone
Maybe she'll forgive me
Now that I've come home
I stand here knockin' on her front door

Big door open wide
Won't you let me in
My love's on the other side
Oh yes, let me in
Big door you stand too high between us
Can't get under, can't get over
Big door swing open, I still love her

I never should have left her
Her love was always true
Maybe she'll forgive me
Oh, what will I do
'Cause she won't answer her frontdoor

Big door open wide
Won't you let me in
My love's on the other side
Oh yes, let me in
Big door you're keepin' us apart
Can't get under, can't get over
Big door swing open, I still love her
Oh, big door swing open, I still love her
Yes, big door swing open, I still love her
