Broken hearted fellow, you're all alone and blue
'Cause the girl you love she's run away
With a fellow she once knew
You thought you was her only
But you know now that's not true
Oh, broken hearted fellow, what are you gonna do
Just remember pal, you're not alone
There's others lonesome too
And just because your sweetheart's gone
Don't feel alone and blue
Oh, broken hearted fellow, take my advice, please do
Don't feel too bad, don't get so sad
She may come back to you

Just remember pal, you're not alone
There's others lonesome too
And just because your sweetheart's gone
Don't feel alone and blue
Oh, broken hearted fellow, let me tell you what to do
'Cause broken hearted fellow, I'm broken hearted too
