You tell me that you love me, I know that it is lied
But I keep right on believin' in a fool's paradise
I make believe, baby-baby, I make believe, baby-baby
Make believin's easy in a fool's paradise
Everybody's askin', what can the trouble be
Well it seems that they all want it baby
Not half as much as me
I make believe, baby-baby, I make believe, baby-baby
Make believin's easy in a fool's paradise
(Let's rock it! Oh, I'm so lonely I could cry)

Keep right on a-tryin' to leave this place I'm in
But then you smiled at someone else
And I'm knocked back yet again
I make believe, baby-baby, I make believe, baby-baby
Make believin's easy in a fool's paradise
Make believin's easy in a fool's paradise
