I'm burning too much gas, we gotta slow down
Stop this rockin' and rollin' around
Ease up honey, you're drivin' me wild
Go down a gear and let's coast a while
Coast a while, coast a while
Go down a gear and let's just coast a while
Well everytime I ask you to stop
You're startin' to giggle, wiggle and bop
I don't dig this jive, I'm a little out of style
Push in the clutch and let's coast a while
Coast a while, coast a while
Push in the clutch and let's just coast a while

Well Rome wasn't build in one short day
We got all night to roll this way
The radiator's hot, the needle's goin' wild
Turn off the key and let's coast a while
Coast a while, coast a while
Turn off the key and let's just coast a while
Well here we are baby, it's the end of the line
So rave up your motor one more time
We been coastin' for over a mile
C'mon honey let's cut out a while
Coast a while, baby let's coast a while
C'mon honey let's just coast a while
