Well baby, I'm glad we had a date tonight
Come on let's live it up
They'll really watch our smoke
We'll have a lot of fun if you string along with me
I know I'll change your mind over a coke
Oh, honest, I'd like to tell you how I feel
But everytime I do, you think that's it's a joke
Help me find the words to say what's in my heart
And we'll discover love over a coke
Jealous, wouldn't you be jealous
If you loved a girl you knew who didn't right
The words I said are goin' over your head
You're thinkin' of tomorrow night instead
Oh baby, if I could only hold your hand
And make you understand every word I spoke
You'll say you want me too, hey waitress, bring two
more
We're celebratin' love over a coke

Well baby, if I could only hold your hand
And make you understand every word I spoke
You'll say you want me too, hey waitress, bring two
more
We're celebratin' love over a coke
We're celebratin' love over a coke
We're celebratin' love over a coke
