Oh I was walkin' down the street one day
I met a pretty little girl on the way
Baby-baby-baby-baby-baby
Oh you' re way—way-way out far
You're great-great, you're way, you're way
You're way out far, you're way out far
She didn't hear a word I said
All she did was shake her head
Honey-honey-honey-honey-honey
Oh you're way-way-way out far
You're fine-fine, be mine—mine
You're way out far, a—way out far
Oh this must sound crazy, love does funny-funny tricks
You're different from all the others
With them I was just getting my kicks
Way-way-way-way out far
Oh you're way-way-way out far
I bet your love is real tough
Oh I'll never-never get enough
I'm in love with you baby
Oh you're way out far, you're way out far
