Each day you say tomorrow you'll ask him to set you  
free  
You promised you would tell him, you want to marry me  
You want him, you want me and yet you want your fun  
Today will pass like yesterday and tomorrow will never  
come  
Darling your tomorrows is just your excuse to me  
'Cause you will never tell him that you're in love with me  
You lied to him, you lied to me, a week is almost done  
Today will pass like yesterday and tomorrow will never  
come

Tomorrow is your promise as each day is almost done  
You know you'll never keep it  
'Cause tomorrow will never come  
You cheat on him, you cheat on me, you're the selfish  
one  
Today will pass like yesterday and tomorrow will never  
come
