Lady of Spain, I adore you
Right from the night I first saw you
My heart has been yearning for you
What else could any heart do?

Lady of Spain, I'm appealing
Why should my lips be concealing
All that my eyes are revealing?
Lady of Spain, I love you

Night in Madrid, blue and tender

Spanish moon makes silver splendor
Music throbbing, plaintive sobbing notes of a guitar
While ardent caballeros serenade

Lady of Spain, I adore you
Right from the night I first saw you
My heart has been yearning for you
What else could any heart do?

Lady of Spain, I'm appealing
Why should my lips be concealing
All that my eyes are revealing?
Lady of Spain, I love you
