I love you  
What more can I say  
I need you darling  
More and more everyday

I want you

To be happy with me  
But I'm only dreaming darling  
Because I know you want to be free

I've been knowing for a long long time  
Just what's been on your mind  
And it's no surprise to me  
That you long to be free  
But all I can say to you

Is I love you  
You're all that I know  
And I'm yours my darling  
Whether you stay or go

I've been knowing for a long long time  
Just what's been on your mind  
And it's no surprise to me  
That you're longing to be free  
But all I can say to you

Is I love you  
You're all that I know  
And I'm yours, my darling  
Whether you stay or go

Don't go  
Don't go
