Why would you wanna be  
Living your life free  
It's just liberty

Energy is wasted for it  
The more we try we're left with nothing  
Try to fight with no reply  
I still wanna see it one last time  
Wake me up at 3 am  
I guarantee you won't find shit  
Extremely good at hiding it

Fuckin' with kids that's the rule  
Don't you guys have better things to do  
With killings happening all day  
And crack houses you probably made  
Why are you contributing?  
I'm ashamed to be a part of it  
Can't you find something better?  
Or are you just afraid  
Of villains that you say aren't even there?

Energy is wasted for it  
The more we try we're left with nothing  
Try to fight with no reply  
I still wanna see it one last time
