"Not Religious"

like a roman fashioned crown
like a cross upside down
life a bible hiding a gun
like a priest fucking a nun

not religious
not agnostic, athiest
a non-exclusive scene
just real human beings

here the kids can all do dope
drink their wine and hang the pope
tie their nephews to a leash
and drag them through pews down on their knees

not religious
not agnostic, athiest
a non-exclusive scene
just real human being
no god just real human beings
