Just like a dream we're coming true, theres a song  
awakening me and you.  
Whispering words that promise love, painting pictures  
of our joy we are one.  
Like a melody that moves arranged in words that rings  
of loving music me  
and you, in love we're one, climbing up the highs of  
love a special beauty  
reaching paradise me and you coming true we're in  
love, we're one.  
Smooth like a poem in perfect rhyme, like the moon  
among the stars simply  
divine, caught in a tender rhapsody we then skim  
above the line soft and sweet.  
We're the melody that moves composed in beauty  
chords of understanding  
key of truth substaining love, like the lyrics of this song  
sweetly calling going  
on and on me and you coming true we're in love, we're  
one.  
Like the melodies that move proclaiming wonder words  
of loving music,  
me and you in love we're one, climbing up highs of love  
a special beauty  
reaching paradise, you and me coming true,we're in  
love, we're one .  
We're one, weeeeeeee're one.
