I've been having a bad habit day

People say, "What's wrong with you, boy? You're on something?"

Know you're like a [Incomprehensible] somebody that's givin' me one lovin'?

Everything goes, there's no limits on nothing

You're on my bubble bath, then you rub my back

Never throws strawberries or whipped cream, you're so clever

You got sixth sense and see it nobody does it better, see it

Hard to get up to work since you and me been together

See I'm so addicted, you're my bad habit

And I can't let you go

Baby, you've become my bad habit

Before I go to sleep I got to have it

I just can't get enough, I need that special rush

When we've been makin' love

I can't let you go

Baby, you've become my bad habit

Before I go to sleep I got to have it

I just can't get enough, I need that special rush

When we've been makin' love

I can't let you go

I've had much, sure of it, you've got that oowie

I'll give you anything as long as you keep on lovin' me

Cook for me and clean and I don't even have to ask

You give me a manicure, spending money on the

[Incomprehensible]

Every man deserves a woman like you one day in his life

When we grow up I wanna marry you, have babies and call you my wife

Right now we just having a little bit too much fun

See I'm so addicted, you're my baby

And I can't let you go
Baby, you've become my bad habit
Before I go to sleep I got to have it
I just can't get enough, I need that special rush
When we've been makin' love

I can't let you go
Baby, you've become my bad habit
Before I go to sleep I got to have it
I just can't get enough, I need that special rush
When we've been makin' love

Baby, without your love, I just can't function
Every day I need a little something, something
I have to let you know
Baby, I can't let you go

You've become
Some people are addicted to drugs
Some people are addicted to alcohol
Some people are addicted to food
But there ain't no one like me lovin' you, baby

I can't let you go
Baby, you've become my bad habit
Before I go to sleep I got to have it
I just can't get enough, I need that special rush
When we've been makin' love

I can't let you go
Baby, you've become my bad habit
Before I go to sleep I got to have it
I just can't get enough, I need that special rush
When we've been makin' love
