Eddie: Alright, Bob sing your song about the American Truck

Bob: No, you sing. I got a headache.

Eddie: Okey!

I'm just a cowboy from old Arizona
Don't live my life as they live it down town
'Cause everyday I'll be rising of the blue morning light
And I work til the sun is going down

So when I'm out there and watching the cattle
I need a vehicle that I can trust
A steady truck that is good and safe and doing it's job
And that won't fall apart from mud and rust

I want a good ol' American truck
A good reliable partner that will work around the clock
A car that always is working hard without getting stuck
I want a good ol' American truck

Nobody can make a truck like a Yankee
I never find me a small Japanese
It's gotta be heavy duty all American truck
Just a car you can trust in every piece

I wanna do a good job when I'm working
I wanna know that I'm worth what I'm paid
I can be sure that the job is being properly done
in a car that is heavy duty made

I want a good ol' American truck
A good reliably partner that will work around the clock
A car that allways is working hard without getting stuck
I want a good ol' American truck

INTERLUDE

When you're a worker you gotta be trusted,
you gotta have a reliable tone
You gotta use an equipment that is quality made
or you and up just looking like a fool

I put my faith in my car every morning
I know it's strong in rain, snow and dust
'Cause it's the car that is allover American made
The only truck in the world that you can trust

I want a good ol' American truck
A good reliably partner that will work around the clock
A car that always is working hard without getting stuck
I want a good ol' American truck

INTERLUDE

I want a good ol' American truck
A good reliably partner that will work around the clock
A car that allways is working hard without getting stuck
I want a good ol' American truck
