Heartache never said I wanted you as a friend  
Still you're coming back again and again  
Won't you ever let me be

Heartache I was over her, at last I was free  
Now bringing back that old misery, is it never gonna  
end

Laughing I was laughing I was standin' oh so tall  
Hurting now you're hurting I remember and I fall

I remember all the times that we had  
I remember everything that you said  
When you're hurting me you're hurting me bad  
And I think you're gonna win

Every time I think that I'm doing fine  
You come back and bring a pain to my mind  
You were sure there on the race down the line  
'Til the day I breaking in

Heartache will I ever be the same man again  
Will you always be around now and then  
Hurting for eternity

Heartache is it possible for me to believe  
That you ever gonna give up and leave  
Will you ever let me be

SOLO

Heartache never said I wanted you as a friend  
Still you're coming back again and again  
Won't you ever let me be?

Heartache I was over her, at last I was free  
Now bringing back that old misery, is it never gonna  
end  
Is it never gonna end
