I thought that I was over you and doing oh so fine  
I thought that I was free for ? you  
But suddenly you walk on by, the girl I can't resist  
I close my eye and try to tell myself you don't exist

But every time I accidentally meet you anywhere  
I guess my will, I simply must confess  
The memory you giving me whenever you're around  
Will push me from the highest hill and make me feel so  
down

Here comes that pain again, drives me insane again  
And I don't know if I ever be the same again  
The thought of loosing you, still makes me oh so blue  
And I don't know how I can reach you now when you are  
just a freind  
Feel the misery coming over me, here comes that pain  
again

I playing round and paint the town, most every single  
night ??  
Just trying to forget the things we had  
I make a toast of good old freinds and think that i'm so  
? ??  
But all that booze with all it brings, more pain and  
misery

SOLO

The thought of loosing you, still makes me oh so blue  
And I don't know how I can reach you now when you are  
just a freind  
Feel the misery coming over me, here comes that pain  
again

And I think that I gonna loose my mind, here comes  
that pain again  
Suddenly I know that I love you so, here comes that  
pain again
