When I wake up in the morning it's an other day with  
you  
And I know what's gonna happen when you wake up,  
you'll just fuzz and make me blue  
I need you, you, you baby  
But you don't seem to want my love  
Ah, ah

All I want is a sweet little woman that is kind  
But your fuzzing and your fighting drives me out of my  
mind  
I said, hold your fire, hold your fire  
Baby, baby, hold your fire, hold your fire

I work so hard to give you all the best of luxury  
You just call me honey when you get my money then  
you turn your back on me  
I need you, you, you honey  
But you don't seem to want my love  
You never do

All I want is a sweet little woman that is kind  
But your fuzzing and your fighting drives me out of my  
mind  
I said, hold your fire, hold your fire  
Baby, baby, hold your fire, hold your fire

I don't wanna leave you honey, and I guess you know  
But if all that you want is just my money I just have to  
go

If you told me I should leave you, then I wouldn't mind  
But I know you love me though you  
keep on fuzzin and it almost makes me cry  
I need you, you, you sugar  
But you don't seem to want my love  
Ah, ah

All I want is a sweet little woman that is kind  
But your fuzzing and your fighting drives me out of my  
mind

I said, hold your fire, hold your fire  
Baby, baby, hold your fire, hold your fire

(Solo)

Well, I don't wanna leave you honey, and I guess you  
know  
But if all you want is just my money I just have to go

If you told me I should leave you, then I wouldn't mind  
But I know you love me though you  
keep on fuzzing and it almost makes me cry  
I need you, you, you baby  
But you don't seem to want my love  
No, no

All I want is a sweet little woman that is kind  
But your fuzzing and your fighting drives me out of my  
mind  
I said, hold your fire, hold your fire  
Baby, baby, hold your fire, hold your fire

Hold your fire, hold your fire  
Hold your fire, hold your fire  
Baby, baby, hold your fire, hold your fire  
I said, hold your fire, hold your fire  
Hold your fire  
Hold your fire  
Hold your fire...
