I won't leave you baby, 'cause I love you so
Yeah, I love you baby, more than you will know
I will love, and I will keep on loving you

Well, you know that I want it, all the love you give
And I'll always want it, as long as I live
I will love, and I will keep on loving you

Tender words of loving are the words I wanna hear
I swear by the stars above, I'll always love you dear

If you ever leave me I'll break down and cry
Never do decieve me, if you do I'll die
I will love, and I will keep on loving you

Well, tender words of loving are the words I wanna
hear
I swear by the stars above, I'll always love you dear

Well, I won't leave you baby, 'cause I love you so
Yeah, I love you baby, baby, more than you will know
I will love, and I will keep on loving you

Alright

(Solo)

Well, tender words of loving are the words I wanna
hear
I swear by the stars above, I'll always love you dear

Well, I won't leave you baby, 'cause I love you so
Yeah, I love you baby, baby, more than you will know
'Cause I will love, and I will keep on loving you

Alright

And I will love, and I will keep on loving you
