I don't know if I can explain it  
Cause there's really nothing different at all  
The sun still burns  
The earth still tuns  
And the winter still follows the fall  
I knew that it wouldn't be easy  
For my heart to find somebody new  
But I never thought  
It still would be broken in two  
These years after you  
They tell me time is a natural healer  
It kinda smoothes the pain away  
But this hurtin' within  
Hasn't yet given in  
And it seems like a million days  
I still remember the taste of your kisses  
And your eyes that were beautifully blue  
And I can still hear the sound of your voice  
When you said we were thru  
Years after you  
Chorus  
Years after years after you  
I'm still cryin'  
Tears after years after you  
I'm still tryin' to make it thru  
These years after you  
There've been mornings when I couldnt wake up  
There've been evenings when I couldnt sleep  
Ooo, my life will be fine for months at a time  
Then I'll break down and cry for a week  
Cause when I told you I'd love you forever  
I know you didn't think it was true  
But forever is nothing  
Compared to some nights I've been thru  
These years after you  
Chorus x2  
I'll never get over you  
Chorus
