You got a peaceful mind and that makes me glad
Something I can't afford, something I've never had
Is that all I'm here for ? Is it all I'm here for ?
Can't be all I'm here for
Keeping the wolves from the door
You got a tender heart and that's a good way to be
Conversation with you is like a stone skipping over a
calm sunset sea
Is that all I'm here for ? Is it all I'm here for ?
Can't be all I'm here for
Keeping the wolves from the door

Poor poor pitiful me
Got nowhere to hide
How can I ever be sure
That's the wind howling outside ?
And I love you just as much as I always did
But I'm a fly in a bottle, got my own fingers on the lid
Is that all I'm here for ? Is it all I'm here for ?
Can't be all I'm here for
Keeping the wolves from the door

Poor poor pitiful me
Got nowhere to hide
How can I ever be sure ?
That's the wind howling outside
And I love you just as much as I always did
But I'm a fly in a bottle, got my own fingers on the lid
Is that all I'm here for ? Is it all I'm here for ?
Can't be all I'm here for
Keeping the wolves from the door
