1.

I think I'm really gonna explode  
The coldness is outside but it's red hot inside  
I'll take you further this time  
Don't pretend that you forgot I won't let you slip away..  
And If it don't mean much to you,  
I'll show ya how to to turn stone into gold  
When I don't take no for an answer even this time,  
You say it's over, let's get it burnin..

Chorus:

Out in the dark,  
There's no where to hide,  
Come in this shelter and dance through the night  
Out in the dark,  
There's no where to run,  
One night was over another's just begun.  
Mistake one mistaken, we make it correct  
Let's think about tomorrow forget about when love's  
gonna end..  
(forget about when love's gonna end)

Ah heh ah heh ah heh ha..  
Ah heh ah heh whoa oh oh..

Repeat verse1.

Chorus

(forget about when love's gonna end)
