Your baby loves you now
So, don't make her blue now
You better start being true now
I'm telling you why

(CHORUS)
Because if you break her heart
Somebody's gonna come along
And he'll steal her away from you
Soembody like me

Let me tell you, friend
I'm not butting in
But I think it's such a sin
If you don't treat her right

(CHORUS)

She wants to be held tight now
Each and every night now
You better treat her right now
I'm telling you why

(CHORUS)

I hope you listened too now
Each word that I've told you now
These things you better do now
Or you won't long

(CHORUS)

Will steal her away
Somebody like me
