I used to cry and then I forgot how, and that's living
If there's no sweatin' up for my brow, well that's living
I'm doing everything I wanna do
I don't do nothin' that I don't want to
Well, that's living, baby, that's living

Planted my garden with seeds of love and happiness
And never left a foot of ground for fate to plant
loneliness

I love everybody 'cause I'm so in love, and that's living
Got the sun and the moon and the stars above and
that's living
Rose is blooming all over the place
I've got bouquets for the human race
Well, that's living, baby, that's living

The beauty life is all there to see, that's living
Ugly never gets through to me, and that's living
Songs are ringing inside of me
I can't quit humming that melody
That's living, baby, that's living

Planted my garden with seeds of love and happiness
And never left a foot of ground for fate to plant
loneliness

I love everybody 'cause I'm so in love, and that's living
Got the sun and the moon and the stars above and
that's living
Rose is blooming all over the place
I've got bouquets for the human race
That's living, baby, that's living, ooh yeah
