Let's make memories tonight  
For this is the night to remember  
Let's make moments to remember  
Forever and the day

Let's don't play around tonight  
It's time now to stop for your teasing  
I must admit it was pleasing  
And make me want to stay

A thousand roman candles  
They explode each time we touch  
Don't think you know my darling  
Why you mean so much to me

Let's make memories tonight  
And no day will last for the lifetime  
Holding you tight for the lifetime  
Makes everything's so right

Let's make memories, let's make 'em tonight  
Let's make memories, let's make 'em tonight  
(Let's make memories tender memories tonight)
