Come here to me, my little chickadee  
'Cause I think it's time you knew  
That you're the kinda gal, I've had in mind  
And I wanna play house with you

Bought the ring, took care of everything  
And I'm ready to say, I do  
You'll be the Mama and I'll be the Papa  
'Cause I wanna play house with you

I never thought, I'd ever would get caught  
By a gal who's five feet two  
But it's a cinch, I love you every inch  
And I wanna play house with you

When you kiss me, I'm like a kid of three  
But my baby days are through  
I'll build a bungalow that'll go to show  
I wanna play house with you

The other gals want to marry me  
But you just say, what for  
I'm confessin' that you've got me guessin'  
And it only makes me love you more

You never let me kiss you more than once  
You're drivin' me wild, it's true  
I know you're teasin' and that just the reason  
Why I wanna play house with you

I never felt like playin' house before  
But baby, now I do  
I'll pay the bills if you'll provide the thrills  
'Cause I wanna play house with you

Bought the ring, took care of everything  
So give me kissin' too  
You be the Mama and I'll be the Papa  
'Cause I wanna play house with you
