Snow can snow storms can blow but a boy will find his  
Miss

As long as there's a girl left on this earth with pretty  
little lips to kiss

Love finds a way it's been that way ever since time  
began

Ever since that beautiful beautiful day when the Lord  
made a woman and a man

(Ever since that way ever since the day when the Lord  
made a woman and a man)

Girl's on the island boy's on the shore the chances  
might look slim

You can bet your life before the day is through  
somebody learn to swim

Love finds a way...

They've tried to part us little girl to keep you from my  
side

But the fire of love will see us through I'll take you for  
my bride

Love finds a way...

When the Lord made a woman and a man

When the Lord made a woman and a man

Love finds a way
