(Don Robertson - Hal Blair)

Snow can, snow storms can blow
but a boy will find his Miss
As long as there's a girl left on this earth
with pretty little lips to kiss

Love finds a way, it's been that way
Ever since time began
Ever since that beautiful, beautiful day
When the Lord made a woman and a man.

(Ever since that way, ever since the day)
(When the Lord made a woman and a man)

Girl's on the island, boy's on the shore
The chances might look slim
You can bet your life before the day is through
Somebody'd learn to swim.

Love finds a way, it's been that way
Ever since time began
Ever since that beautiful, beautiful day
When the Lord made a woman and a man.

They've tried to part us. little girl
To keep you from my side
But the fire of love will see us through
I'll take you for my bride.

Love finds a way, it's been that way
Ever since time began
Ever since that beautiful, beautiful day
When the Lord made a woman and a man.

When the Lord made a woman and a man.
When the Lord made a woman and a man.
Love finds a way...
