(No other arms no other lips no other love but you)

We've had our stormy weather we've had our sunshine
too
We've shared them both together and I'm still here with
you
Sometimes I made you happy sometimes I made you
blue
But love kept us together and I'm still here with you

No other arms no other lips no other love beside me
No other star up above to guide me
Someday you'll go to heaven as all good angels do
I'll find my way to heaven so I'll be there with you

(No other arms no other lips) no other love but you
