Poor boy poor boy look straight ahead  
Good times are coming it has been said  
Poor boy poor boy do not lose faith  
Go right on loving the human race

Born in an old shack on a very cold day  
My mother had to work on the following day  
Destination poverty very little school  
She taught me to respect the golden rule

Poor boy poor boy look straight ahead...

Life has been a struggle moving all the time  
Hanging on a piece of thread this world of mine  
You mustn't go on living in such regret  
What's to be is done you must forget

Poor boy poor boy look straight ahead...  
Go right on loving their human race
